

Timeline and Grading:

<https://github.com/jarek-pawlowski/machine-learning-applications>

- 12-13 lectures
- 3 seminars (or more in case of crowd)
 - 20 minutes (only! -- the hardest thing) + 5 min discussion
 - presented in pairs, while each person presents his/her own part
 - not obligatory, but if you not attend, your presentation grade is **automatically 3.0**
- 7 laboratory tasks:
 - you have to send 3 or 4 or 5 reports,
 - labs grading:
 - 3 reports **3.5** +/- 0.5
 - 4 reports **4.5** +/- 0.5
 - 5 reports **5.0**
- **final grade** is the average of presentation grade and lab grade
